

ORDO SOCIALIS instead of a visit to a restaurant

The membership of ORDO SOCIALIS is continuously increasing. We are 32 members now and further commitments are being made. We extend our thanks to everybody who showed his/her interest in our association by donations or by becoming a member!

Our work for more justice in the world has already produced first results. With your membership fees, the donations and the voluntary work of the management we were able to take the following steps:

1. The first exposé of the BKU Journal about ORDO SOCIALIS as well as the membership application form in English and German and the new

regulations have been placed in our new website (www.ordosocialis.de).

2. Momentarily we are working together with a programmer to make the website compatible also for other browsers (up to now it was only compatible for the Internet Explorer).

3. In order to make our writings also internationally digitally available, we have found translators for Russian, German, English, Spanish and Rumanian, who are capable of digitalizing as well.

Since we strive to do our

work as economically as possible, we have to be flexible in terms of time. The budget is very limited. The book commissioned by ORDO SOCIALIS about "Economy and an Ethics of Globalization. Economics - Ethics - Politics" by Prof. Ursula Nothelle-Wildfeuer and Prof. Alfred Schüller will involve further expenses, and the translation after its publication too.

In short: to achieve all this and much more, we will need more members / sponsors. This then is our suggestion:

If you abstain from a meal

in a restaurant, you already have saved the membership fee of 50 Euro only for a whole year! We plan to turn our events into interesting and versatile "get-togethers". Also under this aspect a membership will be worthwhile. Anybody who wants more precise information about our association can ask the chairman of the board Mr. Cornelius Fetsch and myself at any time to explain our work to smaller or larger groups.

Clara E. Laeis
General Secretary

Wissenschaftliche Vereinigung zur Förderung der Christlichen Gesellschaftslehre e.V.
